

Health Care Reform Can't Wait

CALL CONGRESS TODAY!

EVERY WORKER DESERVES HEALTH CARE THAT. . .

- Is affordable and accessible
- Shares responsibility fairly among individuals, employers, and the government
- Works to keep everyone healthy

The U.S. Senate is still trying to decide if it will support health care reform that works for working families, but the U.S. House has already put together a historic health care reform bill that working families can support.

Voice your support today!

I- 888-743-4403

Here is what you can say when you call:

"Hello, my name is _____. I'd like to speak to Congress member _____'s key health care staffer. I'm calling because I support the right for every person to have access to the health care they need. I'm asking Congress member _____ to support real health care reform that puts regular people before insurance company dollars and to enact the strong reforms outlined in the House bill. We need reform that guarantees affordable care for everyone and ask for your support."
