

# WHY “RIGHT TO WORK” IS WRONG

## LESS RESPECT FOR WORKERS.

Right to Work legislation forces you into accepting lower wages, fewer benefits, and a diminished voice in the workplace.

## WEAKENS MIDDLE CLASS INCOMES.

The average full time worker in a Right to Work state makes \$5,000 less than states that allow workers to stick together.

## DESTROYS OUR COLLECTIVE VOICE.

Without the ability to voice our concerns on the job, employers can arbitrarily fire workers, cut wages, pensions, health care benefits, and outsource jobs to countries like China and Mexico.
